

Senior Research Analyst

Competition # RAM -170S

Posted: August 25, 2017

Closing Date: September 25, 2017

Location: Ottawa, Ontario

R.A. Malatest & Associates Ltd. is one of Canada's largest independently owned and operated program evaluation research firms with more than 70 professional researchers and three data collection centers. We are one of Canada's largest social policy research companies with offices in Ottawa, Halifax, Toronto, Edmonton and Victoria. Currently, we are seeking a Bilingual Senior Research Analyst in Ottawa, who would report directly to our managerial team.

We have more than one position available, and will consider appointing at the Analyst level. Therefore, this position would be of interest to research generalists, experienced data analysts, and those with a focus in summative or content analysis, program evaluation and experience in qualitative research methods.

Our Senior Analysts

Ottawa research professionals are recognized nationally as having strong expertise in program evaluation. Our studies span areas such as health, education, child and youth development, criminal justice, employment and labour market studies, as well as transportation. Areas of potential focus for this position include: health, education, transportation, economics and industry specific analysis, global affairs and infrastructure. Our senior analysts typically take responsibility for important components of large studies, and manage small to medium studies with minimal supervision. Ideally the successful candidate will have bilingual language proficiency with oral and written communications; project work capacity with documents and final reports will most often be required and presented in English.

Key responsibilities include:

- Providing effective project or task management, delivering high quality results to project managers on-time and on-budget;
- Planning and executing different types of quantitative research methods such as survey data collection, administrative data analysis, and integration of data from multiple sources;
- Planning and executing different types of qualitative research methods such as focus groups, key informant interviews, coding themes, summative or content analysis, with integration from multiple sources;
- Undertaking quality assurance of specific project tasks such as complex sample plans and management, data validations and manipulation, as well as analysis;
- Preparing written reports that clearly communicate project methodologies, assess evidence, and present findings;
- Ensuring appropriate quality control of assigned tasks and contributing to continuous learning and improvement across project teams;
- Effectively communicating with Bilingual capacity and supporting the research by meeting project requirements and deliverables;

Qualifications:

- A Bachelor's or Master's degree in social sciences, program evaluation or research methods, psychology, health, education, statistics, public administration, computer science, or another field that included a strong qualitative research component.
- A minimum of 2-5 years of applied research work experience in a professional, client-focused environment with responsibility for managing projects from inception to completion.
- Strong writing skills with the ability to clearly communicate complex concepts in French and English.

- Strong oral and written communications en Francais.
- Ability to manage tasks and work collaboratively with other researchers.
- A high degree of proficiency in one or more areas of: complex program evaluation, statistical and summative or content analysis, advanced survey design.
- Proficiency with technical applications such as SPSS, R, SAS, NVIVO, Access, Excel, CATI/CAWI and standard MS Office products.
- Ability to travel within Canada.
- As a condition of employment we require high level integrity for confidential and private or sensitive information. Must be able to obtain appropriate security clearances required with the Industrial Security Directorate Division of Public Works and Government Services.
